PANELMASTER

fully-automated panel and border processing system

The Panelmaster is designed to work in line with iQuilt, offering a fully-automated panel and border processing solution. Panelmaster is fitted with multi-slitters for border production. A touch screen control allows the user to program the machine for panel and border production. Servo edge-trimming control allows for fine adjustment in the removal of waste materials.

KEY FEATURES

- ◆ Panel cutter supplied complete with 12 multi slitters
- ◆ 2 edge trimming units
- ◆ Horizontal cross cut facility
- ◆ Air mandrel for easy loading of roll
- ◆ Automatic sizing of finished panels
- ◆ Touch screen control
