

MPT GROUP - THE LEADERS OF MACHINE EXCELLENCE

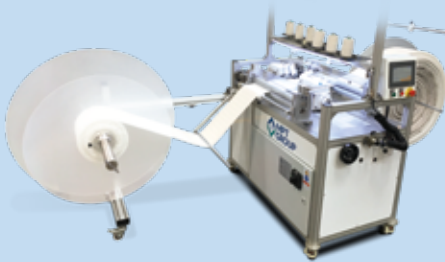

A PRODUCT FOCUS SHOWCASING THREE OF THE MOST TECHNOLOGICALLY ADVANCED MACHINES AVAILABLE TODAY

NEW MATRAMAX-HL

High loft tape edge machine

The new Matramax-HL meets the demands of today's modern mattress manufacturer offering a remarkable 21" of needle to table clearance. The Matramax-HL comes as standard with under table electrical supply and is complimented by our variable speed control automatic corner slow down, electronic head tilt and is fitted as standard with a 5' table.

NEW SERGE MASTER

High speed in-line double border serging system

The new SergeMaster is a high speed left and right sided mattress border serging system. Suitable for all border types which includes Pre-Micro Quilted Borders, SergeMaster can also be used for the preparation of fabricated borders for use on side stitching machines like the BordaTac system.

NSC15 STRIP CUTTING MACHINE

Textile cutting machine

The Strip cutting machine is designed to accept rolls of material to a maximum length of 3000mm and a maximum diameter of 300mm (NSC15) or the optional 380mm (NSC18) and is fitted with a cloth bar to accept 50.8mm inside diameter cores, material is controlled by a variable speed drive, semi-automatic spacing device which allows pre-set cut widths up to 100mm and measuring rule fixed to the carriageway allows for cutting wider widths.
